

Letter from the Club President

February, 2017

We are more than half way through the winter and, after the recent snow extravaganzas, I know we are all thinking “spring.”

Over the last few months, the club has dealt with issues presented by the town concerning the plowing of our roads. First, it appears the town would like to avoid having to plow at all. But the town agreed to plow this winter and reserve for future determination whether to plow in future years. Second, “water bars,” so-called, built into a couple of roads apparently have the potential to damage the plows when the roads are not frozen. A number of Hammond Acres Club members attended Select Board meetings where these issues were discussed. We will work with the town public works superintendent to address the water bars.

As has been the custom in past winters, people continue to ice fish, snow mobile, and party on the pond. We are considering ways to notify those who do not belong on the pond not to trespass.

At our annual meeting last August, funding for the beach rejuvenation project was once again discussed. As you know, a special assessment of \$350 was approved. A payment notice will soon go out with payment options.

Watch for the Melt Down announcement that Bob Labrie will send.
Fill out your day and time picks early.

Also, remember to check the Club’s website for the date of the first work party. Your help is greatly appreciated. We especially invite new members to join in as a good way to meet neighbors and make new friends.

I look forward to seeing everyone next spring.

Best wishes,
Gerry Glasser
