

HAMMOND ACRES WATER CORP, INC.
GOSHEN, MA

The following is a brief description of the Hammond Acres Water Company.

- The Water Co. is incorporated with the State of Massachusetts and registered with the Department of Public utilities. (PWS ID# 11108014)
- It is registered as a transient water system and limited to seasonal operation of 180 days.
- We contract with an independent Massachusetts certified water operator to ensure compliance with all legal and regulatory policies and to provide consultation about operation of the system.
- In addition, we also contract with a certified independent laboratory to routinely draw water samples for testing water quality and to comply with DEP requirements.
- The Water Co. is wholly owned by the water users (currently at 68) who pay a seasonal rate of \$200 for unlimited use of water. Bills for the upcoming season are sent out in the spring.
- The source of our water is an artesian well located on the property with a network of lines supplying water to each individual property.
- The Water Company has a Board of Directors. The Board meets at least once a year and more as needed. All users of the water system are invited to attend the annual meeting, which is held immediately following the Hammond Association meeting in August.
